

At closer quarters – Personalised guided excursions and historical city tours

Throughout a conference, meeting or other gathering, you are always surrounded by throngs of people. In this environment, there is nothing more pleasant than taking time out alone or with a small group to discover the cultural sights and history of Hungary with a personal guide. Learn all the secrets of the Buda Castle residence of King Béla IV and explore the palace at Gödöllő, favourite summer abode of Austrian Empress “Sissi”. A visit can even be arranged at night, when the imposing buildings of the royal villa are only occupied by the spirits of monarchs long departed.
