

Four Seasons Gresham Palace

Capacity: 179 rooms

The luxurious aura of the Four Seasons Gresham Palace Hotel in Budapest is a prime example of Hungarian art nouveau architecture. Overlooking the historic chain bridge, this is the place where glamour and business meet. Nine conference rooms totalling 761 square metres for conferences, a 24-hour business centre and secretarial, translation and interpreting services all ensure the perfect environment for meetings of up to 220 participants. Additional luxuries, such as top-class spa facilities and dining options are a magnificent way to show your conference and incentive guests just how valuable they are to you.
